Signature Edition : ACD506 : True Out-Swing Door
Functioning decorative hardware optional

The courtyard of this Spanish style home features custom designed overhead garage doors (above) and an authentic out-swing door (shown left). Each Artisan door was hand-crafted from Clear Spanish Cedar with tongue and groove face boards, and then stained using a leading wood preservative to protect and accentuate the wood's natural warmth and beauty. To add even more architectural character, each door is outfitted with a stunning set of hand-forged iron hardware, which includes elegantly detailed strap hinges and latches.
